Integrated Technology

Guardian's connection with the community's electronic health record system reduces errors and improves medication management.

The Best Clinical Support

Our clinical pharmacists conduct ongoing medication reviews to ensure your medications are compatible and appropriate for you.

- We coordinate directly with your physicians and third-party insurance providers to maximize your insurance benefits.
- Unlike a retail pharmacy, we bill medications monthly, and our local billing staff is always ready to answer billing-related questions.
- We help you understand your Medicare Part D coverage and can offer one-on-one consultations during open enrollment.

▶▶▶ MINIMIZE YOUR WORRY

- Scheduled and emergency deliveries are available 24/7/365.
- Eliminate trips to the local retail pharmacy and avoid delays in receiving medications by mail.
- You don't have to wait lengthy periods of time for delivery of critical medications ordered late at night or on the weekend.
