Anticoagulant medication: _____

Diagnosis: _____

Prescriber: _____

Phone: _____

Clinic/Lab: _____

Phone: _____

Date of PT/INR	Results	Anticoagulant Orders	Date of Next PT/INR	Transport Scheduled	RN

Instructions:

1. After receiving a prescription from a prescriber, a licensed nurse will document the dosing regimen.
2. A licensed nurse will schedule an appointment for the patient’s next PT/INR as directed by the prescriber, and/or record the date for the next lab draw.
3. On the day of the PT/INR, a licensed nurse will follow up to ensure the results are faxed to the prescriber and a new order is obtained. Follow up includes, but is not limited to, calling or faxing the lab and/or the prescriber.
