

Medication Fridge Temp Log (Fahrenheit)

Monitor temperatures closely. Best to take in the AM

1. Initial on the appropriate date and time and note the exact time.
3. Put an X in the row that corresponds to the temperature.
4. After each month has ended, save log for 3 years.

Take action if temp is out of range.

1. Adjust temperature if out of range. Keep between 36° - 46° F
2. Recheck temp in 30 minutes. Adjust/recheck again if needed
3. Report to your supervisor or maintenance if temp is still out of range.
