GuardianShield™

Unleashing the power of data to drive better clinical and financial outcomes for PA/LTC communities.

○ Clinical Intervention

Gain insights into the clinical interventions we make each day to safeguard residents from medication harm.

○ Insurance Optimizer

Reduce out-of-pocket medication costs and eliminate resident and staff frustration with local billing expertise.

○ Antibiotic Stewardship

Improve antibiotic use, reduce the threat of antibiotic resistance, and improve outcomes for your residents.

○ Psychotropic Med Reduction

Reduce the risk for adverse drug events, such as falls and hospitalizations, with psychotropic use insights.

○ Opioid Stewardship

Mitigate risk for resident harm and drug diversion with trends in opioid prescribing and use in your community.

○ Med Spend Analyzer

Control costs and increase profitability. Quickly assess medication spend and uncover savings.
