

ARRIVING AT THIS INTERSECTION HAS NEVER BEEN EASIER

Combining the strength of two powerful GuardianShield™ programs to drive safety and savings for your community.

INSURANCE OPTIMIZER

CLINICAL INTERVENTION

HOW IT WORKS

Guardian works with the resident's physician and insurance company to ensure that each ordered medication, or a clinically equivalent alternative, is covered

A Guardian pharmacist reviews each prescribed medication for compatibility and intervenes to optimize therapies, contain costs, and prevent adverse drug events

ASSISTED LIVING

Receive detailed reports you can showcase to current and prospective residents—highlighting significant resident savings

Save time and reduce staff frustration, we help navigate complex insurance benefits

Improve clinical outcomes with less resident risk for adverse drug events, such as falls and hospitalizations

Receive clinical impact reports, tracking the interventions Guardian pharmacists make to safeguard residents from medication harm:

- Medication list reconciliations
- Drug-drug interactions
- Drug-allergy interactions
- Duplicate therapies
- Incomplete orders

SKILLED NURSING

Lower costs with fewer non-covered drugs

Save staff's time, we provide prior authorization support and help resolve resident medication billing issues

RESIDENTS

Fewer non-covered drugs

No surprise bills

Lower out-of-pocket costs; average savings of more than \$600 per year

Gain a dedicated Guardian billing advocate to help navigate complex benefit plans

Better health outcomes and improved quality of life

Less risk for adverse drug events, drug interactions, falls, and hospitalizations

Lower overall out-of-pocket healthcare costs
