

GuardianShield

SPECIALIZED SERVICES ENHANCED BY ROBUST ANALYTICS

GuardianShield provides peace of mind and actionable insights for senior living providers.

With GuardianShield, your residents have an advocate for all their pharmacy concerns. From medication safety and accuracy to help with prescription plans and billing, our services increase day-to-day safety and eliminate billing questions that are so time consuming for residents and staff.

Not just about resident services, GuardianShield pairs the expertise of our clinical service teams with experience of our business intelligence group. We take the massive amount of complex data available to communities and transform it into easy-to-understand, actionable reports to pinpoint ways you can improve clinical outcomes and reduce costs while reducing resident risk.

GuardianShield delivers what providers need and residents want – the personal local touch that creates trusted relationships and the analytics to help reduce costs and improve outcomes.

- 1 Insurance Optimizer**
Eliminate staff frustration and missed doses with prior authorization assistance. Our local billing specialists work directly with prescribers and insurance plans to resolve non-covered medications.
- 2 Benefits Navigator**
We help residents and their families understand their benefits, compare plan options, and choose the best fit for their health needs—often saving them money.
- 3 Psychotropic Medications**
Decrease your risk with enhanced oversight and compliance. Increase safety for the individuals you serve with trends in psychotropic medication use.
- 4 Clinical Intervention**
Gain peace of mind with insights into the clinical decisions our pharmacists make every day to keep individuals safe from medication harm.
- 5 Antibiotic Stewardship**
Fight the threat of antimicrobial resistance and other adverse effects. View antibiotic use trends to identify risks and improve prescribing practices.
